EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Wieland on 11/24/03.

The application has been amended as follows:

In the Claims:

In claim 1, step (b), line 1, after "trenches", replace "on" with "in"

In claim 1, step (d), line 1, after "patterning", insert "using RIE"

In claim 1, step (d), line 2, after "trenches", insert "and thereby exposing the silicon substrate".

In claim 4, step (b), line 1, after "trenches", replace "on" with "in"

In claim 4, step (d), line 1, after "patterning", insert "using RIE"

In claim 4, step (d), line 2, after "trenches", insert "and thereby exposing the silicon substrate"

2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest patterning a silicon layer that fills trenches using a reactive ion etching (RIE) to form an etched region, which passes through the silicon layer to

include the trench in order to expose the silicon substrate, wherein the trenches are formed on a sequentially stacked structure of an insulation layer and a silicon substrate.

3. The closest prior art Li et al (6,261,966) discloses a process of patterning a silicon layer which is filled the trenches formed on an insulation layer (see figure 2B) but fail to teach that the patterning step of the silicon layer passes through the silicon layer to include the trenches in order to expose the silicon substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
